PROFESSIONAL SUMMARY

A highly motivated Year 3 Electrical Engineering student with internship experience in software engineering. Actively looking for software-related internships and projects to embark on.

EDUCATION

Bachelor of Engineering National University of Singapore (NUS) **Aug 2021 - Present**

- Major in Electrical Engineering, specialization in Internet of Things (IoT)
- Academics: GPA 4.27 / 5.00 (Honours with Distinction)
- Expected Graduation: May 2025

Relevant Modules: Programming Methodology I (*Python*), Microcontroller Programming and Interfacing (*ARM Assembly, C*), Introduction to Machine Learning (*Python*), Data Science for the Internet of Things (*Python*), Data Engineering Principles (*Python, AWS*)

Certifications: [Introduction to Java Programming I by HKUSTx](#)

WORK EXPERIENCE

FPGA Engineer, Intern DSO National Laboratories **May 2024 - Aug 2024**

- Summer Internship to begin in May 2024.
- Training on the latest high-end FPGA structure, logic, memory performance, and high-speed data interfaces.
- Implementation and testing of FPGA architecture design on LLM's computing intensive modules.

Associated Skills: LLM Architecture and Processing Flow, FPGA Development, Verilog/VHDL

Software Engineer (Robotics), Intern ST Engineering (Land Systems) **Jan 2024 - May 2024**

- Awarded with the ST Engineering Intern Award.
- Implemented and integrated modules for 3D path planning and navigation of Q-UGVs.
- Developed algorithms for effective and robust traversability analysis of terrain.

Associated Skills: C++, ROS, Ubuntu, Robotics Navigation, Bash

Systems Engineer, Intern NCS Group (NCS Engineering) **May 2023 - Jul 2023**

- Constructed interactive front-end UI for an active enterprise-level web application project utilizing React.
- Efficiently managed systems hardening of macOS devices for project deployments utilizing bash scripting.
- Troubleshooting and maintenance of hardware systems deployed across multiple exhibitions.

Associated Skills: React, JavaScript, HTML, OS Hardening, Bash, C#, Troubleshooting

R&D (Business Solutions), Intern Panasonic R&D Center **May 2022 - Jul 2022**

- Managed and co-authored the requirements analysis, system architecture, and wireframe design documentation.
- Modelled the prototyping and testing of LED display panel (Soft Soldering).

Associated Skills: Technical Documentation, Requirements Analysis, System Architecture

NSF Training Instructor, 3rd Sergeant Singapore Armed Forces (SAF) **Apr 2019 - Apr 2021**

- Completed the Logistics Specialist Cadet Course (Transport) and achieved 3rd Sergeant rank.
- Oversaw and managed over 300 transport trainees on course in the School of Transport and Supply.
- Completed SAF Class 3/4 Driving Course at ST Engineering Land Systems.

Associated Skills: Leadership, People Management, Effective Communication

PROJECTS

Spending Tracker (<https://github.com/Jen999/spending-tracker>) **Aug 2023 - Nov 2023**

- Designed and developed an end-to-end Android app to address habitual spending, promoting financial responsibility.
- Pursued this personal project as an NUS credit-bearing [EG2606B Independent Work](#) module.
- Learnt full-stack mobile application development independently and UI/UX design under expert supervision.

Associated Skills: React Native, JavaScript, Firebase (Firestore, Cloud Functions), Figma

SKILLS & INTERESTS

- Skills:** Python, C++, React, React Native, JavaScript, Firebase, HTML, CSS, ROS, Ubuntu, Robotics Navigation, Bash, Git, Web Development, UI/UX Design, Figma, Mobile App Development
- Languages:** English (Native), Mandarin (Proficient)
